# THE BIG WORK

The War Lord Salutes the Field Marshall.

Such is the striking title to a welltimed cartoon in an agricultural paper, showing the War Lord in salute to the farmer. The meaning of it is that without the assistance that the 20 to 40 bushels per acre may be refarmer renders in the matter of proability of that body would be proporis fighting, the farmer is busy. The mated at figures not exceeding ten promptness with which he sprang dollars an acre. With a twenty bushel into the breach was a patriotism equal to that of the man who enlisted and lars. Ten from forty and you have the farmer's record in this particular the profits many farmers made in was worthy of the high record that has become his. All over the United States the appeal is being met by more production. Fields are enlarged, intensive agriculture has taken the place of slipshod methods, more cattle are being fattened, more hogs grown, veal and lamb have become scarce comthe food-controller's demands, and with the heartiness that is now prevalent, it would seem as if the requirements of the boys at the front and the allies in Europe would be fully met.

Not only are the tilled acres of the United States being brought into requisition, but the wild pasture lands are doing tribute with their cattle and Working in conjunction with the United States, Western Canada is also doing its share and a pretty large share it is, too. By an arrangement with the United States Government It will now be possible through its employment bureau to secure for the Western Canada fields such help as can be spared. It is thought in this way Canada will have its help to seed its millions of acres of wheat land fairly well met. The large number of young men of the farms who have enlisted and gone to the front has left many of the Western Canada farms weak in the matter of man power. This means that Canada can take all that the United States can spare. The

wages will be good and the housing

In addition to this the free homestead lands of Western Canada offer the greatest inducement to the man with limited means who is willing to undergo some of the hardships naturally accompanying this enterprise. There is also the large area of uncultivated lands that are waiting the man with sufficient means to purchase and equip. And this is not expensive. The cheap lands are cheap and the terms very reasonable. Equipped with tractor or horse power the cultivation cost is slight when the return is considered. Yields of wheat varying from lled upon, and with a set price of over viding food for the army the fighting \$2.00 per bushel, it is an easy matter to arrive at the cost. Production, intionally decreased. While the army cluding interest on land, has been esti-

lars. Ten from forty and you have

Western Canada the past year. The Dominion and Provincial Governments are working conjointly in an increased production propaganda. Among the important steps that have been taken to bring this about is the recent order by which it is made possible to take into Canada tractors that modities. This is all in keeping with cost fourteen hundred dollars and less in the country of production. This will give those residing in the United States, owning lands in Canada, the opportunity to place them under cultivation at much less cost than in the past. Another inducement is the privilege of taking sheep and cattle in free of duty. Automobiles form a necessary part of the outfit of a good many farmers that would like to move to Canada. These are now accorded free duty. Provision is also made that those requiring seed and unable to obtain it in any other way, may get it from the Government. So from this it will be seen that it is not only the fertile lands of Western Canada that invite the settler, but the ease and

#### Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada CO-OPERATIVE FARMING IN MAN POWER NECESSARY TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tiliable Acre Must Contribute; Every Available Farmer and Farm Hand Must Assist Western Canada has an enormous acreage to be seeded, but man power

is short, and an appeal to the United States allies is for more men for seeding operation.

Ganada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels To secure this she must have assistance. She has the land but needs

the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a man we can spare to Canada's fields after ours are supplied, we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than April 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.

For particulars as to routes and places where employment may be had apply to: U. S. EMPLOYMENT SERVICE, DEPARTMENT OF LABOR

mble condition of ill health that leads to all sorts of special It means a miserable condition of ill health that leads to all sorts of special ailments such as headache, backache, dyspepsia, dizziness, indigestion, pains of various kinds, piles and numerous other disorders—CONSTIPATION is a crime against nature, and no human being can be well for any length of time while constipated. DR. TUTF'S LIVER PILIS is the remedy and has been used successfully all over this country for 72 years. ## Retribution

By REV. J. H. RALSTON, D. D.

TEXT-He that soweth shall reap.-Gal

These words are but a fragment of a text that Dwight L. Moody in his

lifetime used frequently with terrific effect and caused thousands of people to believe as they had not believed in the certainty of retribution. The times in

which we find ourselves, men and women are thinking more seriously than they have for several decades. The most of Christen dom has been in-

dulging itself with the notion that the law of retribution has been held in abeyance, when suddenly the war clouds burst and now three-fourths of the population of the world are directly involved in war. The sowing of all the past, particularly of the last half century, began to show above the surface, and all efforts to stop the growing into the ripeness of retribution were fruitless. But in these days, not only are 40,000,000 men under arms, directly obeying the commands of those who are over them, even to going to certain death, but the manufacturing and commercial interests of half the world must not only cease to relinquish the profits of business, but must pay billions besides. Moreover, the peoples of the nations concerned are compelled to eat less, to eat what they do not like, and in a hundred other ways contribute to the great war budgets that are offered. All, whether they will or not, have reached the stage of retribution. The nations of the world have sown; they are now

In somewhat recent times a kind of camouflage of excessive mirth, hilarity and reckless living has been thrown over some of the serious things of life, and they have been forgotten or ignored; retribution is one of them. Possibly some of the more thoughtful people will hunt up "Butler's Analogy of Religion to the Constitution and Course of Nature" and read his words which have a present pertinence and should have a present application. He says: "It has been observed that such and such miseries naturally follow such and such actions of impudence and wlifulness, as well as actions more commonly and more distinctly considered as vicious; that these conse quences, when they have been foreseen, are properly the natural punishment annexed to such actions." These consequences are quite uniform even to the poor vision of man. If you circle a tree, it will dle; if you do not don warm clothing when there is a low temperature, you will take cold; if you swallow poison, you will die; if you decline to eat proper food you will starve. Possibly the practice of forgetting that we are all under law is the reason why so many are indifferent to retribution; and this forgetfulness is possibly due, as Prof. Austin Phelps of Andover once said to the fact that even the children in the home are not taught the consequences of broken law.

But this great truth of retribution not obliterated withdrawn or mod-ified by the Spirit of God still prevails everywhere in the physical world, in ethics and in religion. Never in the history of the world was there greater need than now for the plainest, but most loving preaching of the whole truth, not only the Gospel that Jesus Christ died for the sins of the world but the self-evident law that "the soul that sinneth, it shall die."

Retribution after death is not denied by intelligent universalists nowadays. Indeed, it is clearly and forcibly proclaimed by them, sometimes with more seriousness than by some evangelical preachers. As men look into the future, not one in scores is troubled about retribution. The life of the departed may have been thoroughly bad, victous and cruel, and he died as he lived. With many retribution only lies in the fact that life is extinct; the man is dead, he has met his desert. Is that true?

The men who have been guilty of the present condition in Armenia, Belgium, and elsewhere, cannot receive proper retribution by simply being put to death. With men that would seem to be a ripe retribution, but there is a settlement in the future, and we may leave such cries to an infinitely merciful, as well as an infinitely holy

In view of future retribution, what is the duty of the hour? Give proper thought to the sowing for retribution and escape the fearful reaping in the future. Remember that sin is malignant; that it brings death here and hereafter. As to the sins that cry out for retribution hereafter, lift up the eyes to the one who has born in his own body all the penalty. However that may reach into the other world and if the sin by the simple act of faith may be laid upon him, the retribution of the future, as far as held is concerned, will not be visited.
